Project on Techno-educational Facilities for Self-Study Courses

- Provision in the Time Table
- Facilities in the Library
- Computer lab facilities
- Academic Advice/Guidance

Self-Study Course refers to the type of learning experience in which students learn how to enhance their communication skills, employability skills personally and professionally and exhibit their skills to potential employers to maximize their career success. The College supports and encourages the students to undergo and complete self-study courses through online or offline apart from their curricular activities. Students are encouraged to utilize expertise, guidance and support of Faculty Members, book sources of College Central Library and the

ICT facilities available in Library, Online Resource Centre, Computer Laboratory, and Language Laboratory after the working hours of the College also.

Support from Faculty Members :-

Mr. Chandan Kumar Assistant Professor of English-Education orienting about Self Study Courses

Faculty Members allotted as Mentors guide students to choose the right course and also help them to register, assist, monitor and complete the courses successfully. They motivate students to register free online courses (SWAYAM/ MOOC) through Online Platform to equip themselves adequately with the required knowledge and skills required for their profession with valuable certificates that help them during placement.

(iv) Language Laboratory

College has Language Laboratory with 15 systems, server with Clarity English software. Each system is protected with anti-virus software. Internet connection is available in all the computers to enable student teachers to use technology to master the English Language. Students, who register for communication skill courses, avail the facilities of this laboratory for developing their communication skills and also completing their self-study courses successfully. There is an LCD alongside for the faculty to make their lectures more interactive. Clarity English Success Software is available for the student teachers to improve on their listening and reading skills. A Flinnel board facilitates student teachers to develop their story line and practice their teaching by using colorful pictures. This helps them a great deal in their school teaching.
