Mentoring / Academic Counselling

The institution has a mentoring system which is useful to identify and cater to the needs of the students. Every student admitted in the college is assigned a mentor in the institution. The mentor-mentee relationship begins from the day of assignment and continues till the completion of the course. All the teachers of the institution serve as mentors. Each teacher is assigned a group of students for mentoring. The teachers are given the behaviour assessment forms of their mentees in order to understand them better and correct their behaviour. The mentors understand the differential needs of the mentees by interacting with them regularly and report it to the IQAC cell. This helps the institution to plan program and activities that can cater to their identified needs. Their progress in learning, participation in programs and other relevant matters are discussed during the meetings. Mentoring is done in various ways such as,

1. Academic Counselling
2. Cultural Events
3. Sports events
4. Community Engagements

REPORT ON REMEDIAL LEARNING ENGAGEMENT

Remedial classes are arranged for students who need it. We understand that every student is unique and different with their own way of learning. It is our responsibility to provide an environment that will foster maximum learning. Remedial classes are arranged for students whose performance is not satisfactory and score equal to or less than 40% in the internal examinations. A separate schedule for remedial classes is preparation with dates and name of teachers taking it. The list of students attending remedial classes is also displayed. Later exams are also taken for students taking remedial classes. We have observed that students who are weak in certain areas of academic, improves due to remedial classes and it reflects in their result of yearly exams.

REPORT ON PEER FEEDBACK

Peer feedback is an important source of learning for students. The students of the institution are encouraged to give and receive feedback to their peers in different learning situations. The students give feedback during the 'micro teaching. They observe their peers and give feedback during demonstration, criticism and observation during the micro teaching. Peer feedback is taken during internship also. The feedback during internship is also very important. Students observe the practice teaching class of their peers and record their feedback in the 'observation form during internship. The feedback thus obtained helps to improve the teaching competency of the students.

REPORT ON LEARNING ENHANCEMENTS

Learning enhancement is very important in order to give extra knowledge to the students. Apart of employing innovative techniques of teaching in all courses and papers, we organize many activities. Workshops, Seminars, Expert Lectures, Guest lecture etc, are conducted frequently in the institution to enhance the learning of the students. During classroom teaching also teachers focus on many new innovative techniques. We organize many outreach learning activities, Seminars, Quiz and awareness program also in the campus which helps the students in learning enhancements.

REPORT ON COLLABORATIVE TASKS

Collaborative tasks are a part of the teaching-learning process. Many activities are organized in the college which engages students and they work in teams. The collaborative tasks require students to work in groups to complete a task or learn a concept. This fosters the spirit of teamwork and helps the members of the group to get mutual benefits. It makes all the learners involved and learns from each other. The shy students develop better relationships, the extraverts volunteer to help others in the group, the hesitant speaker learn to present before others, and all members of the group unconsciously learn about leadership & team work. Collaborative tasks are a great way to understand & serve the differences among students.

REPORT ON MULTILINGUAL INTERACTIONS

The B.Ed. students of the institution choose either Hindi or English as the medium of instruction as per the guidelines of the university. The students are not separated in the classes on the basis of medium of instruction. The teachers use English and Hindi languages for classroom teaching. The notes are provided to them in both the languages. The concepts are explained in both English and Hindi for the better understanding by students. It is ensured that language is not a barrier to learning. Reference books are available in both the languages in the library. The students can do their assignments and other projects in the language they are comfortable with. The question papers in the internal exams and university exams have questions in both English & Hindi. The bilingual education in the institution promotes a deeper understanding of concepts. We offer tribal Regional languages also to the students in the pedagogy subject.
