5 (b). Self-Study Courses

Self-Study Course

Institute of Vocational Studies places utmost emphasis on providing necessary support to students, to ensure their development, academic excellence, and all-round development the students and college is constantly making efforts. Self-study is a method of learning where students take charge of their own studying outside of the classroom, without direct supervision. This allows the student to take control of how, what, when, and where they learn. This method of studying preferred by independent learners because they can take learning into their own hands for their professional development. Learners who engage in self-study can enhance their learning experience and improve their studying skills and competence. Some benefits of self-studying are:

- Encouraging students to learn more effectively.
- Inspiring curiosity and motivates further discovery...
- Boosting self-esteem
- Strengthening problem solving skills
- Learning at a comfortable pace
- Improving time management skills

Many students enrolled and successfully completed it. All students were awarded certificate of completion for the same.
