WORKSHOPS:

ON GREEN ENERGY AND SUSTAINABLE DEVELOPMENT

Green energy is the energy that is produced in such a way as to minimize its negative impact on the environment.

As the population of our country is increasing every year and development process is also in very progressive rate, requirement and consumption of energy per person is also going on exponential rate.

We are in dire need of alternative and natural source of energy. So, to increase the awareness among stakeholders D.P.R.P. B.Ed. College organised a one-day workshop on "green energy and sustainable development".

Dr. Amit Kumar Singh was invited as a resource person on this special occasion. Mr Chandan Kumar as a convener and Nitesh Kumar Dubey Co-Convener was instrumental in organising this workshop.

Secretary college Mr. Shamshu Nath Pandey extended a full support to make it result oriented successful workshop.

Principal of G.P.R.P. B.Ed. College, Dr. Uday Sharma invited Dr. Amit Kumar Singh on the stage of multipurpose hall to address to the students and all stakeholders of the College. Dr Amit Kumar Singh gave his excellent viewpoint categorically to manage our eco system through.

01. Operation
02. Product
03. Eco system policy

Mr. Singh urges students to actively participate in planting more and more trees. He gave overview on achieving carbon and waste free growth through energy efficiency and renewable energy. He motivated all stakeholder to install solar panel for personal consumption because solar energy has emerged as one of the most promising option due to it's renewable, limitless and sustainable nature. Unlike Foss fuels, solar energy is freely available and abundant with the potential to provide enough energy to meet the world's need many times. Mr. Nitesh Kumar Dubey presented his views on contribution of renewable energy for sustainable development. He explained sustainable development attempts to balance economic, social and environmental factors. The goal is to develop a society where everyone has access to the resources, they required to lead respectable lives without endangering the environment.

Mr. Chandan Kumar elaborated in detail - how green energy and renewable energy technology can support the development of rural areas by enhancing agriculture output, driving economic growth and enhancing the quality of life.

The workshop session concluded with vote of thanks by Principal Dr. Uday Sharma.

Sapling of plants and some models of solar energy was distributed among students.
